Reconstruction And Relief Work In New England

Touches of Winter Felt in Vermont and Massachusetts—Waterbury Appeals to Its People to Aid By.

Waterbury, Nov. 9 (P).—Work of reconstruction pushed steadily to the fore today in New England's food devastated area. It was largely a fight against time, the first touches of winter were being themselves felt in no uncertain way in the water-soaked villages of northern Vermont and western Massachusetts.

The vigor with which the situation is being attacked was evidenced by the announcement of Major General Preston Brown, commandant of the First Corps Area, that he was bringing his base for airplane operations from Concord, N. H., to Burlington, Vt., from where he planned to make a second inspection tour of the stricken territory.

At the same time the Boston and Maine railroad succeeded in resuming service to Canada, cut off since storm broke. The route, a temporary one, will take trains from Montreal to Portland, Maine, and thence to Sherbrooke, Que., from where they will run over the Canadian Pacific lines to Montreal.

That left the main line to the west open to supplies from New England for some time to come. The road reported that an unprecedented amount of traffic had cleared through the Hoosac tunnel route, mostly in needed foodstuffs. The Boston and Albany also had the same route while workmen pushed repairs to the line and a half miles of main line which was swept away in the vicinity of Becket, Mass.

At Montpelier, Vt., Governor John Weeks took the initiative in calling together heads of departments and naming committees which were charged with planning the reconstruction. Talk persisted that a special session of the Legislature would be called to take up the question of adequate relief measures. The governor said no official announcement was forthcoming.

Woman's Narrow Escape as Ground Caved in Tuesday

Mrs. John Hardwick of O'Neil Street Was Picking Flowers in Her Yard When Ground Caved In—Rescued Self by Extending Her Arms.

While Mrs. John Hardwick of No. 14 O'Neil street was in the yard at her home Tuesday the ground suddenly caved in beneath her feet and she felt herself plunging downward. Instinctively she extended both her arms and managed to save herself from sinking below the surface of the ground.

As she hung half way above and half way below ground she called frantically for help. It was at noon and no one heard her cries, and realizing that she must aid herself, she reached out and grasped some rose bushes and tried to draw herself back onto firm ground. The bushes were unable to stand the heavy strain and were pulled out at the roots. Again she reached out and managed to secure a grip on other bushes and gradually she was able to pull herself out of the hole into which she had fallen.

Before she was successful in extricating herself she was badly bruised about the body, and her nerves were badly shattered. Neighbors who later heard of her narrow escape tried to plumb the depth of the hole into which she had fallen by twenty-foot poles but were unable to touch bottom. Several barrels of ashes were also dropped into the hole.

Those who have viewed the hole in the ground are unable to account for it as no well or cistern is known to have been located near that spot. The hole is just large enough to admit Mrs. Hardwick's body, and the ground all around it appears to be solid and firm.

If she had not been able to extricate herself from her dangerous position she would have dropped out of sight into the hole in the ground.

Next Board of Supervisors

Ulster county's board of supervisors will be composed of nineteen Republicans and fourteen Democrats for the ensuing two years as a result of Tuesday's election. Kingston city elected seven Republican supervisors and twelve supervisors were elected in the towns. As a result of the election Tuesday, Republican supervisors will remain in control of the county's affairs and the vote Tuesday showed that the work that had been accomplished under Republican administration had met with approval.

Voters Celebrate Dempsey Victory Election Night

Carried on Shoulders of His Admirers Into Court House Where Crowd Had Gathered to Hear Election Returns—Mayor and Everett Thank Voters and Promise Fairness to All.

Mayor Edgar J. Dempsey, who was elected by a handsome majority over his Democratic opponent, Judge Harry E. Schrick, was carried into the court house on Wall street on the shoulders of his admirers Tuesday evening, and was greeted with hearty applause and cheers by the crowd that had gathered there to hear the election returns.

As Mayor Dempsey was placed on his feet the throng crowded around him and he was kept busy shaking hands and receiving congratulations while a number of his friends were busy rounding up automobiles and the callopie that had traversed Kingston's streets a week or so before election urging with music and banners to "Vote for Dempsey."

When the parade was formed in front of the court house it was headed by the callopie and the mayor conveyed to an automobile and the triumphant march was begun through the principal streets.

All along the line of march the music of the callopie, which was heard for several blocks in advance, brought out the householders to the curb where they stood and cheered for the mayor.

Another who also participated in the congratulations and jubilation was Alderman-at-large C. Ray Everett, who had been in the city since he was elected to the court house, and he also was kept busy shaking hands and receiving congratulations.

Result Known at Seven O'clock. Mayor Dempsey went first to the Dempsey Headquarters on central Broadway where he remained to hear the election returns. It was shortly after 7 o'clock when enough returns had been received there to indicate that Mayor Dempsey had been returned to office by a handsome majority.

It was then that his friends gathered around him and escorted him to the court house on Wall street where he was given a rousing welcome. He also met there his running mate, Alderman-at-large Everett.

Dr. Stern Operated On

Dr. A. A. Stern, who has been confined to his home on President's Place with neuritis for several weeks, had his tonsils removed at the Kingston City Hospital on Tuesday. He is still at the hospital and his condition was reported today as being very good.

Emergency Air Mail Ordered

Washington, Nov. 9 (P).—An emergency air mail service to supply the cities in the flood area of Vermont with first class mail was ordered into operation today by Postmaster General New. Service will begin tomorrow.

Mayor Dempsey Has 530 Majority. Everett for Alderman-at-Large Has Majority of 1,159—Next Common Council, 8 Republicans, 5 Democrats—Geroldsek Elected County Clerk, Davis Re-elected Assemblyman, Suiter Re-elected Coroner—Next Board of Supervisors, 19 Republicans, 14 Democrats.

Mayor Edgar J. Dempsey was re-elected mayor of Kingston on Tuesday, defeating Harry E. Schrick, the Democratic candidate, by 530 majority.

At the same time Kingston city re-elected C. Ray Everett alderman-at-large over his Democratic opponent, Samuel Stern, by a majority of 1,159, and elected eight Republican and five Democratic aldermen.

Both Mayor Dempsey and Alderman-at-Large Everett carried thirteen of the twenty election districts of the city.

The present common council is composed of six Republicans and seven Democrats. The common council elected two years ago was composed of six Democrats and seven Republicans. Upon the death of William Smith, Republican alderman of the Twelfth ward, Mayor Block appointed George J. Sharkey in his place. Jacob Schick, a Democrat, resigned as alderman of the Fourth Ward to accept a position with the city, and Mayor Block appointed John Molyneux, Democrat, in his place. When Alderman-at-Large Dempsey became mayor upon the death of Mayor Block, the council stood seven Democrats and six Republicans. The Democratic members joined with the Republicans in unanimously electing C. Ray Everett, Republican, as president, thus creating a vacancy in the Eleventh ward, which was filled by Mayor Dempsey by the appointment of Abraham D. Relyea, Republican, but this did not change the political complexion of the council.

Results in County. In Ulster county, Assemblyman Millard Davis was re-elected, defeating Holt N. Winfield, the Democratic candidate by about 3,000 majority. Mr. Davis carried Kingston by 60.

Walter G. Geroldsek, the present efficient deputy county clerk, was elected county clerk, defeating Eugene B. Carey, the Democratic candidate, by over 3,000 majority. Mr. Carey carried the city of Kingston by 780. George Suiter of Marlborough was re-elected coroner on the Republican ticket without opposition.

Board of Supervisors

The next board of supervisors, whose members take office the first of next January, will stand 19 Republicans and 14 Democrats. The present board stands 16 Republicans and 17 Democrats.

Kingston city elected seven Republican and six Democratic supervisors. Of the twenty towns, twelve of them elected Republicans and eight elected Democrats as supervisors.

DAILY RADIO PROGRAM

Thursday, November 10.

The Chicago Civic Opera Co. will present a portion of Verdi's opera "Faust" for the second of the series to be broadcast by WJZ and the Blue Network at 10:00 a.m. Thursday night. Edith Mason, the American soprano, will sing Marguerite; Charles Hackett, tenor, will take the part of Faust; and Metropolitan Opera soloists will be assigned to Alexander Kipnis. At the same time the Red Network and WEAF have arranged for the broadcasting by the Smith Brothers' Symphony team, and five minutes later the Pennsylvania station will introduce to the audience of the air the famous Philadelphia concert ensemble, the Petersens, formerly the daughter of a Methodist parson, and now one of the favorites of the Opera Comique and the Metropolitan Opera. In this program Max Baer will be assisted by the Maxwell orchestra and the double string quartet. Early evening highlights will be choral selections by the Bonnie Laddies male quartet through WJZ at 7:00, and the Hoover Sentinels in an Armistice medley through WEAF and the Red network at 8:30.

From Water Boy To Court Clerk

Joseph D'Amato Finds America is a True Land of Opportunity. If One Works Hard Enough.

Niagara Falls, N. Y., Nov. 9 (AP).—Twenty years in the United States have proved to Joseph D'Amato, a Sicilian clerk in the Niagara Falls police court, that America is a true land of opportunity—if one works hard enough.

Born in Italy, an immigrant to the United States at the age of four, and successively a water boy on a Canadian power construction job, a ditch digger, a farm laborer, a candy store clerk, a factory worker, and finally an aspiring lawyer, D'Amato has passed the first part of the examinations given to candidates for the bar and is using his spare time to prepare for the final tests at Rochester in January.

Each advance in his life came with an opportunity to earn a few more cents in pay, even though at the stage it meant leaping into the muddy bottom of ditches with a pick and shovel. Now, at 29, he has a position in a law office, and is clerk in a police court, a position which was created especially for him.

When the D'Amato family landed at New York in 1906, the youth's only ambition, young as he was, was to earn enough money to help his parents—who were poor—living for a time in Niagara Falls. D'Amato at 14 took advantage of a power plant construction job to work as water boy, and when the plant was completed, he obtained work on a farm eight miles from his home. Each morning and night he walked to and from work, just to be able to get the 80 cents a day which the work offered.

An increase to \$2 a day was offered by the ditch digging work so he took that until a factory job was open. Then, desirous of completing his education, he worked in a candy store days and attended night school so that later, with the help of an Italian lawyer here, the youth obtained a position as shipping clerk in a factory at \$10 a week.

D'Amato soon was offered a place as stenographer in the law office of his friend, and from there he worked gradually into the police court post. Lawyers who were pleased with his work there, and who also realized the necessity of having a permanent clerk, induced the city council to name him temporarily, and he obtained the position permanently after passing the civil service examination. Still not content with his education, D'Amato enrolled in high school, doing the work together with his regular duties at the court. Then he married, and this year, with two children, he lives in a comfortable home in a good residential section of the city, awaiting the day when he will be able to take the remainder of the bar examination. Of his career, D'Amato says: "It's been a long and hard struggle, but the reward is going to be worth all the hard work."

Clark Declines To Testify

Washington, Nov. 9 (AP).—Another of Harry F. Sinclair's associates, Sheldon Clark, declined today to testify before the grand jury investigating surveillance of the Fall-Sinclair oil case trial today.

Clark, who is vice president and general manager of the Sinclair Refining Company, was before the grand jury less than five minutes. He was excused until tomorrow when there will be propounded to him specifically the same questions which Henry Mason Day, another Sinclair official, refused to answer before the grand jury on the ground that it might tend to incriminate him. Information received at the district attorney's office was that Clark refused for Day on one or two occasions in receiving reports from the Burns detectives who shadowed the ten men and two women on the Fall-Sinclair jury.

Clark declined to make any statement both before and after he appeared before the grand jury, explaining that he could not talk until his examination by that body had been concluded.

Anti-Saloon Loses in Ohio

Bill to Restore Powers of Minor Courts, Sponsored by League, Overwhelmingly Defeated At Referendum.

Columbus, Ohio, Nov. 5 (AP).—Ohio, home of the Anti-Saloon League and the scene of an unbroken list of league triumphs in previous years, yesterday for the first time refused to follow the leadership of the dry organization.

The Marshall justice of the peace bill, sponsored by the league when it was forced through the last session of the state legislature and the object of its strong support when brought to a referendum, was buried under a vote that exceeded the most optimistic forecasts of its opponents.

The bill, which would have restored in part the powers of justice courts, taken from them by a recent decision of the United States Supreme Court which held against the existence of courts that derived support from the assessments of fines, was lost under an adverse majority of more than 244,000 votes on the basis of reports from 6,501 of the 5,718 precincts in the state. The vote was 345,025 for the bill and 689,775 against.

In Cleveland, an effort to overthrow the city manager form of government, led by former Governor Harry L. Davis, seemingly had failed by a margin estimated by the city board of elections at approximately 6,000 votes. On the basis of 400 precincts out of 729 in the city, the Davis amendment to the city charter had polled only 34,115 against 25,965 adverse votes.

Candidate in Kentucky Slain

Louisville, Ky., Nov. 9 (AP).—Judge Flem D. Sampson, Republican nominee for governor, had a majority of 8,857 votes over his Democratic opponent, J. C. W. Beckham, on the face of incomplete unofficial returns from 117 of the 120 counties of Kentucky. The vote, with most of the counties complete, was: Sampson, 329,623; Beckham, 320,766.

Beckham had opposed the parliamentary system of betting in Kentucky while Sampson contended it was not an issue. In the mayoralty race in Louisville, Mayor Joseph T. O'Neal was defeated by a majority of 3,772 by William B. Harrison, Republican nominee, according to unofficial figures, with twenty-one of the 694 precincts missing.

The vote was carried out quietly throughout the state except in two mountain districts. Gill Lewis, candidate for city councilman, was shot and killed and his brother, Floyd Lewis, was probably fatally wounded at Harlan. Lindsey Clark was instantly killed during a shooting affray at the polls at John's Creek, two miles from Prestonburg.

FOODES FOR OCCASIONS

Some time when you want the dessert especially attractive, serve ice cream in an angel food. Bake the cake in a round tin. Remove the top take out the center and fill with vanilla ice cream. Cover with the cake lid and pour over the top enough crushed and sweetened strawberries to cover.

Chocolate Waffles.—Make a paste of one-half cupful each of cocoa and hot water, then add one cupful of milk, two well-beaten eggs, two cupfuls of flour sifted with four teaspoonsful of baking powder, one-half teaspoonful of salt, one-fourth cupful of water and two tablespoonsful of melted butter. Mix all together well, add a half teaspoonful of vanilla and bake on waffle iron. Serve with a chocolate and marshmallow sauce.

Mixed Fruit Salad.—Use one-half cupful each of shredded pineapple, chopped nuts, orange pulp, grapefruit pulp, halved maraschino cherries, and one and one-half cupfuls of sliced bananas. Mix the fruit and nuts and chill. Serve with one-half cupful of heavy cream whipped, adding two or three tablespoonsful of mayonnaise dressing. Serve in nests of lettuce.

Angel Food Marquis.—Prepare an angel food, using one cupful each of egg whites, sugar and flour, a pinch of salt, one-half teaspoonful of cream of tartar and a teaspoonful of vanilla. Beat the egg whites, adding the salt and half of the cream of tartar; add the sugar when the whites are beaten stiff but not dry, adding it gradually, then fold in the flour, to which the cream of tartar that remains is added. Bake in a tube pan for two hours in a very slow oven, browning the last few minutes in a hot oven. When the cake is cool, cut in three layers and put together with whipped cream, chopped bananas and pineapple, with a few nuts and raisins if desired. Cover with whipped cream and serve.

Eat much lettuce; it is rich in vitamins. Hence, magnesium, has sodium and a generous portion of phosphorus.

Morris Sees Victory in 1928

New York, Nov. 9 (AP).—George K. Morris, chairman of the state Republican committee, sees in the results of yesterday's election an "overwhelming victory for the Republican party in 1928."

"To impress the nation with his strength in New York state," Mr. Morris declared in a statement issued today, "Governor Smith deserted the constitutional amendment providing for a four-year term for governor and threw the entire power of the Tammany machine against this proposal. The result of this treachery to self-confessed principle has been an empty victory for the governor."

The election forecasts an overwhelming victory for the Republican party in 1928. Governor Smith's entire plurality last year was slightly more than 240,000. Returns from nearly the entire state on the four-year term amendment indicate opposition registered far in excess of this figure.

Thousands of independent Democrats and Republicans alike, apparently convinced that the present two-year term was more desirable, went to the polls not to express resentment against the proposal to hold gubernatorial elections in presidential years, but to kill the four-year term proposal itself.

"It is doubtful whether even Governor Smith will have the hardihood to claim political endorsement from this turnover when the entire vote is registered, especially as the Socialist party voted solidly against the four year term amendment."

In the election of Republican Supreme court justices in three judicial districts, Mr. Morris saw a rebuke by the voters "for an attempt to establish a Democratic judicial sovereignty through the election of Tammany judges."

Huge Python

The longest snake of which there is authentic record was a python captured in Malaysia and shipped to the Tierpark at Hamburg, Germany. This snake died immediately after reaching port, and was stretched on the deck of the steamer and measured by Dr. Arthur Irwin, then director of the Philadelphia Zoological society. It measured a few inches over thirty feet in length and weighed close to 300 pounds. This species, the regular or reticulated python (Python reticulatus) is the largest species of serpent. It is alleged to attain a length of 35 feet.—Pathfinder Magazine.

Local Army Horse Wins First Prize

Cody, ridden by Sergeant Roosa and Entered by Local Battalion Wins First Prize in Walking Division.

Cody, bay gelding, ridden by Sergeant John Roosa of this city, was awarded first prize in the walking division at the National Horse Show at Madison Square Garden Tuesday night. The mount was entered by the First Battalion 156th Field Artillery in command of Major O. R. Hiltibrant and was trained at the

Driving Park here where the Field Artillery conducts its stables.

Major Hiltibrant is very proud of the performance of Cody and his rider, Sergeant Roosa. The horse's performance guided by the capable rider was most perfect. It was said that the animal was a born walker and never broke into a trot during the many intervals of forced directions from a slow to sprightly walk.

There were fifteen horses to answer the bugle call after a minute's interval to settle themselves before the race. At the end of the race but four remained who did not violate the rules by breaking into a trot. Cody's nearest competitor as a perfect walker was Canterbury, a brown gelding owned by H. E. Man-

ville and ridden by Miss Estelle Manville. Canterbury was a good walker and a fast one but was forced to second place by Cody who refused to do anything but walk at any time. When awarded the blue ribbon the Kingston horse was pronounced the greatest exponent of self-control with a perfect heel and toe form.

Third and fourth places were taken in the walking class by Mrs. L. Benson's brown gelding, Tide Gate, and Ode Gray, Miss Betty Blodgett's gray gelding, respectively.

The Redmount service cups were captured by the dashing Polish cavalrymen who rode off with first, second and fourth places. Gagas, a sleek, brown gelding ridden by Colonel Karol Rommel, was judged the first prize winner after razing the hazardous course which consisted of jumps over a triple bar and over. Proctor, the United States Army team's bay gelding that saw service in France with General Pershing, took first honors in the jumping event for middleweight qualified hunters. The army horse, one of the outstanding in the last Cathedral Show, took his honors after a perfect performance and defeated the Trillora Farm's Chestnut gelding, Killmore, and O. W. Lehmann's chestnut mare, Revellie, winners of second and third places respectively.

Religious Leaders Commend Red Cross Service

Rev. S. PARKES CADMAN
President of the Federal
Council of the Churches of
Christ in America

WILLIAM CARDINAL O'CONNELL
Archbishop of Boston

RABBI LEON HARRISON
Temple Israel, St. Louis

All faiths endorse Red Cross Membership Roll Call—Leaders of Protestant, Catholic and Jewish churches in the United States call on their fellow-members to support the Annual Membership Appeal to be held from Armistice to Thanksgiving Day.

OUTSTANDING representative of the Nation," says Dr. Cadman, "its continuing responsibility for dealing with the after-effects of the flood gives it a special claim upon our generous support at this time." In Dr. Cadman's opinion, not since the great war has there been such a demonstration of the value of the Red Cross.

"Surely every citizen who has caught the spirit of religion will desire to contribute a dollar to this great humanitarian service and with the gift breathe a prayer to Almighty God that the people of this nation may be lifted to higher planes of living through sharing with those who suffer in great disasters," concludes the well-known minister.

His Eminence, William Cardinal O'Connell, Archbishop of Boston, and the Primate of the Catholic Church in the United States, is equally outspoken in his commendation.

"This organization has comforted the stricken and the unfortunate of our nation and of other countries in untold ways and with unbounded success during the past year," says the Cardinal. "It has advanced the fine traditions which years of faithful service have merited in its favor. It has spent itself assuming human suffering and deserves the unstinted co-operation of all in whose name it has endeavored to carry on the work of God and perform the highest of virtues, Charity."

His Eminence is sure that the loyal devotion of the American people to the cause of the Red Cross will enable it to continue its noble accomplishments.

From Rabbi Leon Harrison of Temple Israel, St. Louis, comes an appeal addressed "To Men and Women with Kind Hearts." "Do something to cause Thanksgiving among the friendless and stricken by joining the Red Cross," urges the Jewish leader. He points out that it means but little in financial outlay but much to the cause of Humanity. "In this cause we will unite," he continues, "Catholics, Protestants and Jews; men of every religion and men of no religion; for the differences that are theological can never extend to the elementary duties of humanity."

In conclusion Rabbi Harrison calls upon every American to join "this great and blessed organization."

NEWS OF MRS. MARY WILSON CLAIM \$12,000,000 FUND

Vicount Bangor One of Claimants to
Fortune Administered by Crown
Since 1798.

London.—Vicount Bangor, the well-known Irish peer and large landowner, is one of the claimants to a fortune of more than \$12,000,000 in a suit against the British government which will form one of the most romantic cases of the Chancery court here for many years.

The claim goes back to 1798. In that year, there died in London one Maria Epine, a certified lunatic. She left a fortune of about \$400,000. At compound interest this sum is now estimated to be worth about \$12,000,000. The original estate was administered before Maria's death, by the lord chancellor, as the legal guardian of all persons of unsound mind.

Afterward, the crown asserted that Maria was an illegitimate child and, as such, possessed no heirs-at-law. Being, moreover, a lunatic, she was unable to make a will, so the estate became the property of the crown.

George III, on obtaining possession of the funds, made them over to Admiral Lord Howe in recognition of the latter's distinguished services with the fleet, but on the condition that they should be restored, if a claimant ever sustained a right to them.

The present claimants are asking that the crown order the funds restored. Their claim is based on the assertion that Maria was not illegitimate, that her parents were secretly married before her birth.

Patent search through the parish registers of London has gone on for years. Now the claimants have discovered an entry in the register of St. Martins-in-the-Fields, which records the marriage of Robert Epine to Mary Jenie Eccles, the parents of Maria.

There was no other issue of the marriage, and the claimants assert that Maria's aunt was her next of kin. All the living heirs of that aunt, who include Lord Bangor, have united in the petition, which was originally filed by Miss Amy Mason of London.

The point at issue, supposing the claim to be sustained, is whether the statute of limitations will operate in such a case. So far as is known at present, there has never been a previous decision on this point of law. There are no descendants of Lord Howe, to whom the money was granted, and thus, if the petition is successful, the treasury will be responsible for the payment of the claim.

Red Cross Nurses Aid In Every Great Disaster

Two major disasters, the Florida hurricane and the Mississippi flood, required the services of Red Cross nurses in large numbers over a long period of time in the past year.

In the Florida storm, service of 350 nurses is recorded. It is estimated that about 100 others assisted in the first few days as volunteers. The total number of nurses in the Mississippi valley flood was approximately 500. In every major disaster the services of Red Cross nurses are needed, lending added importance to the rolled reserve which now numbers more than 45,000 Red Cross nurses. These nurses are available for any emergency, though they are on duty in hospitals and in private practice. They constitute the reserve of the Army and Navy nurse corps in time of war.

Besides emergency duty, Red Cross nurses assisted materially in many local services. Chapter reports to National Headquarters indicate. The Eleventh Annual Roll Call of the Red Cross, from November 11 to 24, it is pointed out, is an opportunity for everyone to become identified with the Red Cross.

Forage Land in U. S.

Is Almost Depleted

Washington.—Depletion of forage resources in this country has reached such a stage that definite and earnest effort is urged to solve the problems of forage production on ranges and to develop satisfactory utilization practices for this type of land.

Attention is called to this situation by W. R. Chapline, inspector of grazing in charge of range research of the United States forestry service.

"As early as 1800," Chapline says, range grazing lands were stocked to their capacity, while some were already overstocked. Continued overstocking over enormous areas reduced the carrying capacity both by cutting down the quantity of forage produced and by increasing erosion of the productive surface soil.

"Continuous research is essential to meet fully the needs of the range live stock industry. Open herding and the bedding-out system in handling sheep, and the deferred and rotation system of grazing, have resulted in increased carrying capacity and a chance for improvement of depleted range."

It is estimated that 26,000,000 sheep, goats and swine and 13,000,000 cattle, horse and mules of the eleven western states obtain 70 per cent of their feed from range land. The value of the live stock is approximately \$900,000,000.

Rural Carrier Dresses

Up All Boxes on Route

Sacramento, Calif.—W. E. Shawkey, rural mail carrier in the Paradise mountain district, can claim to be one of the country's most spirited citizens.

Shawkey recently returned to work after a vacation during which he went over his route and "dressed up" the mail boxes.

Where there once were disorderly arranged groups of boxes there now are orderly colonies, placed in neat and freshly painted rows on a small table built between painted uprights.

Mrs. Mae Baker, the postmistress, purchased a supply of lumber and Shawkey supplied the necessary paint and labor.

Claims Cancer Is

on the Increase

Ashville, N. C.—One out of every ten human being succumbs to cancer, Dr. William P. Healy of New York declared in an address at the annual convention of the American Association of Obstetricians, Gynecologists and Abdominal Surgeons here. He added that the disease was on the increase and asserted that one out of five women between the ages of forty-five to sixty-five years also dies from the disease.

Election Results Of Importance

High spots of Tuesday's Election in Various States and Cities Where Fight Were Waged the Hardest.

(By The Associated Press.)
New York State—Governor Smith triumphed in the fight against constitutional amendment which would provide for gubernatorial elections in presidential years. Republicans retained control of lower branch of legislature.

Detroit—Mayor John W. Smith, opposed wet, apparently was defeated by John C. Lodge, grand uncle of Edinburgh, in close vote.

Kentucky—Flem D. Sampson, Republican, apparently elected governor over J. C. W. Beckham, Democrat, opponent of pari mutuels; Democrats charge frauds, two killings during campaign.

Philadelphia—Vare's machine triumphed in the easy victory of Harry H. Moore, Republican, who defeated W. W. Roper, Princeton football coach, re-elected city councilman in hot scrimmage.

Ohio—Anti-Saloon League was defeated in backing a referendum bill approved by the Legislature which would have put justices of the peace on a fee basis with authority to try violators of the prohibition laws.

Three Republican congressmen were elected—James M. Beck in Pennsylvania, Charles G. Tamm in Ohio and Clarence E. Hann in New York. They will have seats which have been held by Republicans.

Concord, N. H.—Miss Gwendolyn Jones, 24, ex-telephone operator, defeated overwhelmingly by Mayor and Marden, ex-policeman.

Norwich, N. Y.—Mrs. Katherine Soddard, Democrat, defeated by Mayor D. H. Curnalia, Republican.

New York City—Mrs. Ruth Patt, Republican, socially prominent, mother of five children, re-elected Alderman.

Secaucus, N. J.—John Kane, president of board of education, who defeated a smoking school ma'am in her dismissal was urged, elected Mayor. The teacher, Miss Helen Park, assisted in his campaign.

Glen Cove, N. Y.—The Rev. John Cammack, Episcopal, Republican, elected public safety commissioner in Long Island town where thirty New Yorkers have summer homes.

Pittsburgh—County Controller James G. McGovern, appointed by Gov. Governor Pinchot, elected city commissioner over opposition Mellon machine.

Santa Fe, N. M.—Voters favored constitutional amendment changing the term of state officers from six to four years.

Cleveland—Effort of former Governor Harry L. Davis to abolish city manager government defeated.

Toledo—William G. Guttman, city price director, defeated by William Jackson.

San Francisco—James Rolph, Jr., elected mayor for fifth term of four years, defeating James E. Pow, former postmaster.

Salt Lake City—Mayor C. Clarence Neslen, Democrat, defeated by John F. Bowman, Republican, both reformers.

Louisville, Ky.—Mayor Joseph T. Neal, Democrat, defeated by William B. Harrison, Republican.

New Jersey—Republicans retained control of Legislature.

Dempsey Favored At High School

Mayor Edgar J. Dempsey, Republican, was favored to succeed himself as mayor in preference to Harry Schirick, Democratic candidate. When a straw vote was taken at the Kingston High School Election Day, the votes were divided: Dempsey, 11; Schirick, 399.

Results of other balloting were as follows: For alderman-at-large: C. W. Everett, 553; Samuel Stern, 39. For county clerk: Eugene B. Arer, 529; Walter Geroldsek, 285. For assemblyman: Millard Davis, 32; Holt N. Winfield, 423.

Present Prosperity Favors City People

Nine-Tenths of National Income Goes to 70 Per Cent Urban. Population—50 Per Cent. Farmers Get Less than One-Tenth.

Stratford, N. Y., Nov. 9.—Seven-tenths of the population of this country the agricultural portion now enjoys about 10 per cent of the national income, while the 30 per cent who are farmers do not get more than the less than eight per cent of the national income.

The inequities in taxation and in land policies have worked great hardships to farmers, the dispossessed share of taxation borne by the estate, and hence by the farmer.

Dean Mann pointed out that his business today benefits largely from the combination of land and labor. He said that the time is here when farmers must adopt measures to reduce competition among themselves.

How Do They Spend? "Whether the standard of living of farmers improves, depends on the way they use increased income," he stated. "If they are to have a better living, they cannot use increased income to purchase more land or produce more crops and livestock."

Three Problems. "With this prosperity, with the city in a dominant position, with industry rather than agriculture in the saddle, and with agriculture depressed in parts of our country, three problems come to the front," he said.

First, on the economic side, how can a body of farmers be retained who are economically free and efficient, and who can compete successfully with industry and commerce for capital, labor, and income, and for the desired standard of living?

Second, on the social side, can the quality of our farm stock be kept on a par with the American stock in cities, where there are able to command enormous resources for education and for all manner of social utilities and benefits? These advantages of the cities draw good blood from the country. Can this

be continued and still remain on the farms at a level of human stock?

Third, on the moral side, we face the issue whether material civilization is running away with us. Can we maintain our moral standards in the face of a world dominated by materialism and powerful urban industrial development?

Fourth, on the moral side, we face the issue whether material civilization is running away with us. Can we maintain our moral standards in the face of a world dominated by materialism and powerful urban industrial development?

Don't
have Ugly Red Hands

There is a way—quick, easy and delightful—to remove all the aging marks of work, through the use of an entirely new preparation, made especially for the purpose. This Hand Cream (formerly Thurston's Hand Cream), as it is called, is entirely different, unlike anything you have tried before. It is not a lotion, cold cream or "vanishing cream," but a cream especially for the hands. The way it restores the natural soft, white loveliness of your hands almost in an instant will be at once a delight and a marvel to you.

A jar of this cream \$1.00 and is guaranteed to be satisfactory or your money refunded. This Hand Cream has been tested and approved by Good Housekeeping Institute and leading laboratories. For sale at Connelly Drug Co. and Bedrick's Drug Store.

BEWARE THE
COUGH OR COLD
THAT HANGS ON

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth. Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs. Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchitis, asthma, and other forms of respiratory diseases, and is excellent for building up the system after colds or fever. Yellow Jackets In Stiff Workout

The Yellow Jackets were put through a vigorous practice Tuesday night in preparation for a strong team Sunday. The next regular practice session will be held Thursday in the rear of the armory. Several formidable eleven are on the list of opponents for next Sunday, including the Poughkeepsie outfit that battled the Yellow Jackets to a scoreless tie last Sunday.

Coach Carl Preston sure did work the Yellow Jacket players Tuesday night in the practice session. The local gridiron team's workout was the most strenuous since the opening of the season. The backfield went through a number of plays until they moved in mechanical like fashion. The players appeared to enjoy the practice as did Coach Preston who recently returned from a hunting trip in the Adirondacks.

If Poughkeepsie is selected to battle the Yellow Jackets again next Sunday the Bridge City players will undoubtedly find the locals more stable than in the previous meeting.

Shamrock Quintet

A new basketball team will make its appearance this season. They will go under the name of the Shamrock Five. Mike Brown of this city will manage them. They will be composed of several well known Kingston boys. They would like to book a game with the Red Shields, and any other strong team of this city. Linemen Wear Big Shoes at the University of Illinois

Lloyd Burdick, Illini Sophomore Tackle.

FOOTBALL shoes worn by linemen at the University of Illinois average one to two sizes larger than the footgear of the backs. Despite the constant wall that the "foot" is being legislated out of football, the size and formation of a gridman's feet are most important.

The uncanny ability of Red Grange to keep his feet in spite of mud, tacklers and critical angles is attributed in great part to the fact that he had well-proportioned feet. He wore a size 8 1/2-D football shoe.

The biggest feet on the squad belong to Lloyd Burdick, sophomore tackle from Assumption. He wears a 12-EE shoe ordered specially. Gordon, Burdick's sophomore tackle mate, and Les Marriener, veteran line-smasher, require size 11, while Bubblers Mitterwallner wears a half size smaller.

Blair French, quarterback, has the smallest feet, wearing a 7-D shoe, while Just Timm, Idaho halfback, wears a 7 1/2. Frank Walker's pedal extremities require shoes a size larger and Mills takes a 9. Butch Nowack, fullback, wears a 10-E, but Butch was a line-man in high school and during his first two years in college.

The largest shoes issued in the memory of Ben Crackle, veteran steward of the Illini supply room, were size 13 1/2, given to a freshman candidate who lasted only a couple of weeks.

SEEK TO MATCH WILLS-LENGLEN

Promoter Pyle Hopes to Entice Helen Into Pro Ranks.

News that will interest tennis fans came from the headquarters of C. C. Pyle, promoter de luxe, who is to boom another professional tennis exhibition next year, somewhere in the West, and hopes to entice Helen Wills into the pro ranks.

It is Charles Pyle's ambition to stage a match between Suzanne Lenglen and America's star, Helen Wills. Is an amateur at heart, but she might be won over, Pyle thinks.

A match between these two girls stars would cause world-wide interest, particularly as few believe that Suzanne can be defeated by anyone. Mary K. Browne came near to causing an upset last year, but the marvelous skill of the French racket-wielder came back to save her from defeat. Miss Browne did remarkably well at the Coliseum, Chicago, last November and she was such a huge success that few could understand why she quit Pyle's troupe. Mary now runs an attractive millinery shop in Cleveland and has abandoned professional tennis for the time.

So with the Californian out of the running, Helen Wills would have to meet Mildie Lenglen in order to thrill the ever-ready public. Perhaps a monster assemblage would turn out to see these two battle for supremacy on the courts.

Whether Pyle can convince Miss Wills that she should join the troupe remains to be seen, but at least Suzanne is ready and will be prepared for a match at any time.

Here's Tablet That Tells Whole Story

One corner of Franklin field, the athletic stadium of the University of Pennsylvania, has a tablet reading: "You can't lick a team that won't be licked." These words were spoken many years ago by Penn's famous coach, Mike Murphy. The inspiration derived from reading the slogan has been of wonderful value to Red and Blue athletes in competition.

Bruce Caldwell Barred by Yale

Because He Played Two Insignificant Games of Football at Brown When a Freshman—Plan May Be Extended to Baseball.

New Haven, Conn., Nov. 5 (AP)—Because a raw youth four years ago played two insignificant games of football as an obscure freshman at Brown University, the roaring tens of thousands at the Yale Bowl for the Harvard-Yale game on Saturday will not see the headlong, hair-breadth, dashing play of one of the greatest maulers Yale football ever knew.

Deprived of his battle-marked blue jersey, Bruce Caldwell today considered daily the possibility of getting a job waiting on table to eke out his scanty funds. Training table fare has eased his budget worries thus far but will be taking care of them on board.

Among the athlete's fellow students appeared a feeling of pronounced resentment of what was seen as cruel personal injustice to Caldwell in revealing his violation of Yale's eligibility rules just four days before the Princeton game and the realization of his greatest ambition.

"In the broadest interpretation of the rules of gentlemanly conduct," said the Yale News editorially, "we cannot excuse this Shylock for waiting until now to demand his pound of flesh. What but the basest motives of personal bitterness could prompt a man to withhold his board evidence until the eve of the realization of every boy's fondest dream?"

A tabulation of the games in which Caldwell has participated showed today that he played but three minutes against Harvard and not at all against Princeton in his three years of Yale varsity football. These are the only institutions with which Yale has the agreement barring athletes who transfer from other institutions from competition in the same branch of sport. For that reason there can be no taint on any of Yale's victories this year.

Yale athletic authorities who were prompt to verify and act upon the information concerning Caldwell first published in the Providence, R. I., Bulletin yesterday, bent their efforts today to discover whether he ever played baseball at Brown. If so the ban would be extended to that sport, in which Caldwell is a star at second base.

Game Tonight At Armory Court

The basketball season will open at the armory tonight when the Kingston representatives in the Metropolitan League will contend with the Catskill court performers. No definite starting time has been announced but it is expected that the game will be started about 8 o'clock. A new net has been erected about the court and everything is set for the opening battle. Malsenholder's orchestra will furnish music for dancing after the game.

The teams will lineup as follows: Kingston, Knoche and Riconda, forwards; Mickey Husta and Yerkes, guards; Grabic or Frank at center, Catskill, Kellett, Dorman, McDonald, Dreyfus, Bergen, Williams, Kelly and Peloubet.

The Chandlers of this city will meet the Saugerties All-Stars in a preliminary game. Amateur rules will be used with "Dutch" Crawford, former Kingston High School court man, as referee.

Warringtons vs. Chichester.

On Friday evening the Warrington basketball team will play their second game of the season against the Chichester Five at Chichester.

Fire Destroys Boxers' Bungalow

A bungalow on Mark Miller's boxers' training camp at Eddyville was totally destroyed by fire Tuesday. The Eddyville fire department received a belated call for assistance. They kept the flames from spreading and in this way probably prevented a great loss. The fallen leaves about the place was a factor in the spreading of the fire and had to be kept well drenched by chemicals.

It is not known how the fire started. The bungalow which was lost was situated approximately on the spot where the old handstand of Fly

's Men and Hi-Y Banquet

Stincerity and sympathy
expressed by Dr. Bell, President of
St. Stephen's College, as ob-
ject of All Men.

President of the Y's Men held
a banquet at the Y's Men's
club meeting and banquet at the
Y's Men's club.

The presidents of the two organiza-
tions presided in splendid manner.
After singing "America" the ben-
ediction was pronounced by Scott
H. M. Smith.

Then followed a splendid meal pre-
pared by the Y's Men and served
by the Hi-Y Auxiliary.

Members Reidel of the Hi-Y Club
and Stine of the Y's Men played a
duet that brought forth much
applause, until the president announ-
ced that they would play again later
in the evening.

Harmer Brown of the Hi-Y Club
led the devotional period of the
evening.

Dr. Gifford then introduced the
new members of the Y's Men's
club, Kenneth Gray, Charles Fraser,
Edward Stine and Charles Ramsey.
Mr. Ramsey who is the president of
the local association, announced with
great pleasure his ability to become
member of the Y's Men and ac-
cepted it an honor to be with them
and was going to show them the way
to go, and make them hustle to keep
with him.

Dr. Gifford then introduced the
speaker of the evening, Dr. Bernard
H. Bell, president of St. Stephen's
College at Annandale-on-the-Hudson.

Dr. Bell in the course of his ad-
dress stressed the reason of going
to college as to study the thoughts
of great men and to know what
the leaders of thought have been
thinking during the past years. He
said that if one could understand
the thoughts of the leaders, happi-
ness and success would come to that
student for he would be able not
only to think then for himself but
to do also.

He built this theme up about the
three absolutes of Plato's philoso-
phy, namely beauty, truth and

goodness, translating them into
three key words that we possibly
understand more easily. Simplicity,
simplicity and sympathy. These three
goals, Dr. Bell claimed, are ob-
jectives of all men. Some strive harder
toward them than others and some
better than others.

Dr. Bell told the group that the
object of each man was to help
the other attain toward the goals,
not by legislation, nor by force,
but by friendly and helpful treatment
and placing of confidence in the man
himself, expressing to him your
faith and belief in him.

Following the address, President
Thompson of the Hi-Y and President
Gifford of the Y's Men spoke briefly
on the objectives of their respective
clubs.

Members Stine and Reidel played
another duet and after a brief busi-
ness period of each club the meet-
ing adjourned, feeling that it had
been good to be there. It is the hope
of the members that another time of
similar nature may be held in the
near future.

dominant personality with blue-shar-
pen square jaws can look the little
fellow over and after piercing with a
glance the latter's shifting eye, tell
that the honest but bashful man is a
crook. The grocer looks over the
self-apologetic coldly and bites the
tongue that is handed over the counter
before condescending to accept it.

And, somehow, the apologetic always
has a way of wearing his clothes like
he had stolen them off a clothesline
somewhere, and he can't put up a
"front" without he has better attire
than he can afford.

The humble man never gets credit
for anything until he dies, and then
the preacher, casting around for some
thing good to say of him, puts in the
worst knock of all by saying: "He
hadn't an enemy in the world."

Financial and Commercial

New York, Nov. 9 (AP).—Sharp breaks in stocks and cotton divided speculative interest in today's market. The reaction in the stock market came after an early period of strength and probably was influenced by the drop of as much as \$1 a bale in cotton prices which followed the publication of an unexpectedly large crop estimate.

The recent recovery in stock prices had cancelled a substantial portion of the sharp losses last month and the spirited advance in some of the high priced specialties undoubtedly had weakened the market's technical position. At their top figures of the morning, such popular issues as General Motors, U. S. Steel common and General Electric averaged about 5 points above the recent lows, while Houston Oil was nearly 20 points higher. Steel and General Electric reacted 3 points from Monday's closing levels in the early afternoon and Allied Chemical, Commercial Solvents, Delaware and Hudson and Du Pont sold 4 to 6 points.

Lower the weekly steel trade report reported that business in the first week of November was holding up to the October level and that a considerable tonnage, particularly for rails and pipe lines, was in prospect for the early months of the next year. Another advance of ten points was made in the price of export copper.

Banks called about \$10,000,000 in loans during the morning but call money continued in plentiful supply at the renewal figure of 3 1/2 per cent.

In the first up rush of buying, Continental Insurance soared 5 points, Warren Brothers 4 1/2 and the American Tobacco issues, Arnold Constable, Real Silk Hosiery, Fidelity Phoenix Insurance and several other specialties advanced 3 or more points, but these gains were cut in the afternoon selling.

PATIENCE NEEDED TO HOLD THIS JOB

Cutting Flying Field Turf Has Its Hazards.

Washington. Airplanes being what they are, mules being mules, and grass being what it is, the problem of keeping the turf of a flying field close cropped is one of great complexity, trying alike to the ingenuity of responsible officers and the patience of grass cutters.

Bolling field, used by army and navy fliers here, is a sizable establishment. It is not only necessary to keep the turf in condition for planes to land or take off at any time, but to protect the conditions, who must work in the field all day, every day, with their mule-drawn mowers. And a grass-cutting machine, which has never been noted for speed or agility, can give even more damage than it receives if it comes to grips with a swiftly moving, delicately balanced airplane.

The safety problem has been attacked with flags which, fluttering brightly against the green background, from conspicuous places on the grass-cutting equipment, give warning to aviators. But the tribulations of the moving machine pilots are not so easily reduced. If so inclined, there is an opportunity to develop a philosophy of perfect patience.

Whatever their inclinations, they must at least put into practice the credo of such a philosophy. After braving the perils of flying propellers to cut the grass, they must remove it from the turf.

Just as the farmer takes his hay, they gather the shorn grass into windrows. But frequently, at Bolling field, these windrows, which might be poetic in a less modern environment, are in the path of an airplane, taking off or alighting, with the propeller creating a small but extremely vigorous private windstorm. Then the raking must be done again, the windrows recreated, with hope but without certainty. Clearly, it is a job for a job.

Bus Is Favorite Ride of London Commuters

London.—Lord Ashfield is trying to discover why it is that women prefer busses.

He is working hard to induce more people to travel on tubes and thus relieve the congestion of London streets. Men listen to the appeals for more tube travel, but women are deaf. They continue to storm crowded busses and shun underground transportation.

One explanation of the popularity of busses is that women are able to do a little window shopping from the top of the open busses, and do not begrudge the added time it takes to make long trips.

It has been found that highly trained business women, who are efficient office workers, patronize the underground quite generally. But housewives, waitresses and young shop assistants prefer busses.

Keep Alive Memory of Barbara Frietchie

Frederick, Md. — Although more than three-score years have passed since the last shot of the Civil war was fired, the patriotic fervor of Barbara Frietchie is still fresh in the memories of her home town folks.

The home of Maryland's Civil war heroine was restored this summer. Hundreds of tourists visited the quaint little brick structure with its dormer windows and low-pitched eaves.

Articles that tradition says were Dame Frietchie's property form most of the furnishings of the house. These include her rocking chair, spinning wheel, clock, chintzware and even the flag that she is said to have waved in defiance at Stonewall Jackson's southern troops.

British Stevedore Eats 20 Dinners on Wager

London.—Twenty workmen's dinners of steak pie and vegetables, amounting in all to six pounds of meat, three pounds of fat, three pounds of pie crust, eighteen pounds of vegetables and eight pounds of greens was the modest meal consumed for a wager by Henry Bullion, a Deptford stevedore.

The twelfth dinner took the edge off his appetite, but after drinking a few pints of beer after the fourteenth he was able to chew his way manfully to the end.

Seek Rare Blue Poppy in Indian Mountains

Karachi, India.—An expedition is on its way from England to search for a blue poppy in the northwest frontier mountains of India.

The head of the party will be Capt. Kingston Ward, noted explorer and naturalist, who has already made journeys into China and Tibet to search for unknown plants.

"Blue poppies are by no means unknown," says Captain Ward, "but they are very rare. We shall search for mountain plants and fauna of all kinds and we shall be away from England about a year."

Local Death Record

Mrs. Elizabeth Becker died at her home on Market street, Saugerties, Monday evening in her seventy-fourth year. She is survived by three sons, William Lasher of Quarryville, Henry Lasher of Saugerties, and Ellsworth Becker of New Brunswick, N. J. Funeral services at the Congregational Church, Saugerties, Tuesday afternoon at 2:30 o'clock. Interment in Blue Mountain cemetery.

The remains of Michael J. Tracy, who died at his home in Brooklyn on Sunday, were brought to this city today and interred in St. Mary's cemetery. Mr. Tracy was born in this city and at the age of twenty years removed to New York with his brother John, where they engaged in the stove-vending business, and developed it into one of the outstanding shipbuilding firms in the country. During the World War the firm supplied the government with many boats and helped in many ways to facilitate the shipment of war material. Several hundred coal barges and colliers make up the fleet of the Tracy business, whose main office has been in lower Broadway, New York city, for many years.

The funeral of Mrs. Frederick Goldbach was held from her late residence, 325 East Chester street, this morning at 8:45 and at St. Mary's Church at 9:15 where a requiem high Mass was offered for the repose of her soul by the Rev. William H. Kennedy. A large funeral cortege and profusion of beautiful flowers attested to the high esteem in which the deceased was held. Representatives of the Ladies' Auxiliary, A. O. H., Division No. 4, and St. Mary's Holy Rosary Society attended the funeral in a body. The bearers were Charles Brooks, John Carroll, Charles Stauble, Thomas Lahay, George Young and Peter Lahay. Interment in St. Ann's cemetery, Sawkill, where the Rev. Father Fuchs pronounced the final absolution.

Peter Herb died at his home, 101 Clifton avenue, Tuesday November 8. He is survived by his wife, one son, Almeric H., four daughters, Elvira H., Pauline, Florence and Zadel, wife of J. L. Hommel of this city; one granddaughter, three brothers, Isaac and Charles of Kingston and John Herb of New York city, and a sister, Mrs. Charles E. Brown of this city. Deceased was a member of Kingston Lodge, No. 10, F. & A. M., Mt. Horeb Chapter, R. A. M.; Rondout Commandery, Knights Templar; Kismet Shrine, Brooklyn; Gratiot of Brooklyn, Minnawaska Tribe of Red Men, No. 130, and Weiner Hose Company, No. 6 of Kingston. The funeral will be private and at the convenience of the family. Those desiring to view the remains may do so on Thursday evening from 7 to 9 o'clock.

Left Lasting Records on Bricks and Stones

Clay tablets, bricks and tables of stone formed the writing paper for those who made the first written records. Despite such crude equipment, the Assyrians and Babylonians possessed astonishing libraries. The library of Sargon at Agade contained thousands of volumes, including works on astronomy and astrology and many books of fables. The characters were impressed with a metal stylus on soft clay tablets, which were then baked in the sun or in a kiln. The prophecies of the Sibyl were written on leaves. Several copies of the Bible were written on palm leaves, and some may still be seen in museums. It is from this that the term "leaf" as applied to a sheet in a volume, is derived. In the book of Job mention is made of writing on stone and on sheets of lead. The law of Moses was written on stone. Hesiod's works were written on leaden tablets and then rolled up like a cylinder. When the Greeks were merely shepherds, they put down their songs with thorns and awls on leather. Bronze tablets were used for their laws and more important records.—T. P.'s Weekly.

"Angling" With Volts Is New German Idea

The "compleat angler" that Isaac Walton once had reference to is no longer adjudged complete unless he carries the new third-rail tackle in his basket, according to a German inventor who proposes electrocution of marine vertebrates instead of netting or hooking them. Under his plan a mild electric current would be passed through a brook, and early fish who came looking for worms would find volts instead. Shocked into unconsciousness all fish, large and small, that came in direct contact with the current, would rise to the surface and the fisherman could sort out the sizeable ones at his leisure, permitting the little fellows to revive and swim away.

Fish hatcheries and game wardens, however, do not view the new invention with a credulous or condoning eye, arguing that even the most hardy of the fish, which were permitted to escape, would have their dispositions ruined by frequent electrocution and the process would be fatal to the delicate nervous system of infant trout.

New Triumph for Governor Smith

In Decisive Defeat of Amendment to
Extend Biennial Election of Gov-
ernor Into Presidential Year—
Votes on Other Amendments Indi-
cate Their Passage.

New York, Nov. 8 (AP). A new
personal triumph for Governor Al-
fred E. Smith had been recorded to-
day by the electorate of New York
state in the decisive defeat of the
proposed constitutional amendment
to extend the biennial election of
governor into presidential years.

Balloting behind Smith's opposition
to the measure, the voters duplicated
the recent action of the electorate of
New Jersey and buried the proposal
under an avalanche of ballots at the
election yesterday. Returns from
virtually two-thirds of the state
showed the plan had lost by a ma-
jority of more than 525,000. At the
same time eight other amendments
which the governor advocated ap-
peared from incomplete returns to
have been given favorable majori-
ties almost as great.

How Tammany Regards Vote.

Democratic chieftains regarded
the vote as lending emphatic ap-
proval of the leadership of Governor
Smith, and saw in it a new boom for
the governor as a candidate for the
presidential nomination. George W.
Olney, Tammany chieftain, regard-
ed the result as tantamount to a vote
of confidence in the governor.

The governor, who originally had
favored the four year term idea, had
based his opposition to the amend-
ment as presented to the voters yes-
terday on the clause that would have
thrown gubernatorial elections into
presidential years. He took the posi-
tion that to hold the two elections at
the same time would result in sub-
ordination of state issues and permit
the election of second rate candi-
dates to the governorship.

In a statement claiming eight of
the amendments had been adopted,
the governor said defeat of amend-
ment No. 6, the one relating to the
four year term, "must not be con-
strued as indicating opposition by
the people to the extension of the
term of governor." Both sides had
admitted throughout the campaign
he said, that the change was "not
only desirable, but absolutely neces-
sary."

New Subways Possible.

Nearly complete returns gave the
proposal to increase New York city's
debt limit to permit the borrowing of
\$300,000,000 for construction of new
subways a favorable majority of
more than 230,000. The measure
had been vigorously supported by
Mayor James J. Walker as necessary
to enable him to keep his platform
pledges to improve transit conditions.
He said that the heavy vote polled
in favor of the amendment would
permit him to proceed with the com-
pletion of new subway routes and
"bring to the subway riders of our

city the comforts and conveniences
so long delayed."

Salary Increases Approved.

Fairly complete returns of the
amendment to increase the annual
salary of governor from \$10,000 to
\$25,000 and those of members of the
Legislature to \$2,500, gave that
measure a favorable majority of
more than 430,000.

Other Returns Delayed.

The votes on the other amend-
ments indicated their passage by
large majorities, but complete re-
turns were delayed, due to election
laws providing that the vote on con-
stitutional amendments be counted
last.

The other amendments require
the governor to submit a budget to
the Legislature, permit county ap-
propriations for grade crossing
elimination, makes the governor the
titular as well as the actual head of
the executive department, permit
the construction of a state highway
in the forest preserve of Essex county,
permit counties to condemn land
for parks, public plazas and streets,
and prohibit the annexation of ter-
ritory by a city without consent of
residents of the sections affected.

Republicans Gain Three Assembly-
men.

In the election of Assemblymen,
the Republicans made a net gain of
three seats. With one of the 159
districts missing, the complexion of
the new assembly stood, Republicans
87, Democrats 62. The missing dis-
trict, the 17th Kings sent a republican
to the Legislature last year. The
present assembly is composed of 84
republicans and 66 Democrats.

Clarence E. Hancock, Republican
of Syracuse, was elected to serve the
unexpired term of the late congress-
man Walter W. Magee, from the 25th
congressional district. He defeated
Henry B. Brewster, Democratic
county chairman of Onondaga county.

Vare Organization Still in Saddle

Philadelphia, Nov. 9 (AP).—The Re-
publican organization under the lead-
ership of Senator-Elect William S.
Vare, is still in the saddle in Phila-
delphia.

Efforts by independents to unhorse
it at yesterday's municipal election
met with failure, the entire organiza-
tion ticket, headed by Harry A.
Mackey for mayor, having been
swept into office by overwhelming
pluralities.

Mackey's unofficial majority over J.
Hampton Moore, Citizens' Party can-
didate, was 165,062, the vote being
Mackey, 291,489; Moore, 126,427.

The rout of the independents was
complete. Moore apparently carried
only one of the 48 wards, the 42nd.
In the 22nd ward, which Moore car-
ried by 5,000 majority in the prim-
ary, the race was close, but Mackey
was leading by about 200 votes with
a few divisions missing. In the pri-
mary Moore carried 12 wards and was
defeated by only 80,000 votes.

In a statement early today Senator-
Elect Vare said the heavy Republican
vote was a notice to the country that
Philadelphia was still the stronghold
of Republicanism and that it would
"give heart and courage to Republi-
cans everywhere upon the eve of the
presidential election."
